GSA Product Catalog

Effective February 17, 2016

MMG Modular Buildings for Government Applications

Special Item Number: 361-10D & 361-50

Pre-Engineered and Prefabricated Buildings and Structures for Military, Disaster/Emergency Response

Part Number: 240120 PROCESS
Product Name: Prefabricated Modular Building

Price: \$62.69 Sq. Ft.
Lease Option Price: \$ 2.48 Sq.ft. (12 month minimum, add delivery, setup, teardown, and options (see page 4))

This 240'x120' 28,800 SF building includes 2,051 LF of interior partitioning, 16 exterior doors, 67 interior doors, 18

windows, 255 recessed fluorescent lights, 5 handicap toilets, 12 standard toilets, 4 urinals, 18 lavatories, 3 showers, 1 double bowl sink and 1 janitor sink. Included are secure detention cells with penal grade toilet/lavatories, penal grade lighting, doors and vision windows. The floor, walls and ceiling of the holding cells are finished with industrial grade material to allow complete hose washing as necessary.

This building meets CBP standards and can be ready for occupancy within 6 months ARO.

Part Number: 1640 ISO
Product Name: ISO Office

Price: \$ 49.47 Sq. Ft.
Lease Option Price: \$ 1.96 Sq. Ft. (12 month minimum, add delivery, setup, teardown, and options (see page 4))

to form a complete building with insulation, finished interiors, HVAC and electrical. Additionally it includes 2 exterior doors, 1 interior door, 4 windows and 16 LF interior wall. This building takes advantage of the existing intermodal, military and the worldwide commercial transportation industries infrastructure and can be ready for occupancy within 2 months ARO.

This building is made using standard 8'x40' ISO shipping containers and joined together

Pre-Engineered and Prefabricated Buildings and Structures for Professional Facility Solutions

Part Number: 3660 TRNG
Product Name: After Action Review Trainer (AAR)

Price: \$ 124.55 Sq. Ft.
Lease Option Price: \$ 4.94 Sq. Ft. (12 month minimum, add delivery, setup, teardown, and options (see page 4))

This 36'x60' 2,160 square foot building is designed and built to accommodate the latest Super High Tech electronic training systems

available anywhere. It includes 112 LF of interior walls, 2 exterior doors, 5 interior doors, 1 window and 18 recessed fluorescent lights. All interior walls are built with an STC 45 sound attenuation rating to deaden the transmission of sound from one room to the next. All exterior and interior doors are equipped with cypher locks for added security. A commercial grade t-grid suspended ceiling is installed at 9' AFF (nominal) and the interior walls are finished with commercial grade vinyl wall covering on 5'8" gypsum board.

These buildings can be ready for occupancy within 6 months ARO.

MMG Modular Buildings for Government Applications

Special Item Number: 361-10E & 361-50

Pre-Engineered and Prefabricated Buildings and Structures for Professional Facility Solutions

Part Number: 16860 OPN OFC
Product Name: Modular Office Building

Price: \$ 40.32 Sq. Ft.

5. Points of Production: Burleson, Johnson, Co., TX, Riverside, Riverside Co., CA 92504, Diboll, Angelina Co., TX 75941
6. Basic discount: See GSA pricing below for units 1-4
5% GSA discount applied. For calculation of the GSA
- Schedule price (price paid by customers ordering from the GSA Schedule, and the price to be loaded into GSA Advantage), the contractor should deduct the appropriate basic discount from the list price and add the prevailing IFF rate to the negotiated discounted price (Net GSA price). Current IFF rate is 0.75%.
The final Schedule contract award price is calculated as follows: Negotiated price divided by (1 minus .0075) which equates to Negotiated price divided by 0.9925.
Example: (\$100,000 / 0.9925) = \$100,755.67
7. Quantity discount: SINs 361-10D & 361-10E: Add'l 1% on 5 Units or more. Does not apply to SINs 361-30, 361-32, & 361-50.
8. Prompt payment terms: 1%-15 Days, Net 30
Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.
- 9a. Gov. purchase cards must be accepted at or below the micro-purchase threshold
- 9b. Gov. purchase cards are accepted above micro-purchase threshold: Yes
10. Foreign items: None
- 11a. Time of delivery: SINs 361-10 D, 361-10E & 361-50 180 days after ARO. For SINs 361-30 and 361-32 see approved delivery info within the approved price list.
- 11b. Expedited delivery: SINs 361-10D & 361-10E: 150 days after ARO with coordination with MMG
- 11c. Overnight/2-Day delivery: None
- 11d. Urgent requirements: Agencies can contact the contractors rep to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

Modular Management Group, Inc.

Installation Services

- 1. Standard Set-Up** – Standard set-up for a single wide modular unit up to 60' long with 16" x 16" double drystack CMU piers (25" max. ht.) on ABS pads on grade. Installation shall consist of finishing interior and exterior seams to include block, level and seam building (on a truck-accessible, dry and level site). Carpeted floors will be professionally seamed, and/or vinyl tile installed across mate line as appropriate to fully conceal seam. Ceiling seam shall be acoustic T-Grid ceiling tile site installed across seam to totally conceal mate line. Wall seams shall be vinyl covered battens. Exterior seam trim shall be a 1" x 6" wood or 26 Ga. Steel "Hat Trim" as appropriate for siding selected. Roof seam trim shall be material recommended by roofing supplier. Price also includes standard site and building clean-up such as removal of debris, sweeping etc. of a 720 sq. ft. building. This price excludes any installation of roof vents, HVAC roof/pad mounted units or plumbing connections. The cost also does not include any site work. The price shown assumes the site is ready for the unit at the time of delivery. **All labor and materials installed in accordance with applicable codes.**
- 2. Concrete Footings** - Poured grade footers. Includes reinforcement.
- 3. Drystack CMU Piers** – Cost includes 16" x 16" double drystack to a maximum of 25" high.
- 4. Anchors** - Auger earth anchor; concrete embedded "minuteman" anchor or equal.
- 5. Deck Installation** - ADA compliant 6x5 deck with steps and handrails and 30' handicapped ramp, not to exceed 4-step riser. Deck is built new from treated wood, galvanized steel or aluminum.
- 6. Skirting Installation** - Matching skirting up to 32" high.
- 7. Electrical Service** – NEMA 3-R disconnect as required, mounted on the proposed modular building and connected to subpanels located in each modular unit. Sub-feeds from disconnect to subpanels shall be copper cable sized appropriately. Connection from existing power source to proposed disconnect is excluded. Cost includes ground rod installation.
- 8. Plumbing Service** – Manifold sanitary and potable water lines for 2 handicapped single restrooms, consisting of 2 water closets, 2 lavatories, 1 hot water heater, 1 water cooler and 1 coffee bar sink. Sanitary sewer shall be ABS/PVC piping and potable water shall be copper. Manifold shall be completed to a single point terminated in the crawl space of the proposed modular building. Connection from proposed single point termination to existing plumbing services is excluded. Thermostatically controlled heat tracing and insulation is included in the cost shown.
- 9. Fire Alarm Installation** - Furnish and install a stand alone fire alarm system consisting of 2 manual pull stations, 2 AV devices, 2 smoke detectors, 1 heat detector and 1 main control panel. Cost also includes the panel having the ability to notify the fire department via dialer.
- 10. Phone and Data** – Furnish and install 1 CAT 5 phone/data drop in an existing single gang wall box with a conduit stub. Cable for drop shall be terminated in a phone/data room located in the proposed modular building. Maximum distance from drop to phone/data room shall be 25' Punch Panel and connection to existing service is excluded.
- 11. Site Superintendent** – 1 Modular Management Group representative on the site to supervise smooth execution of the project.
- 12. Engineered Foundation Plan** – Cost based on typical 720 square foot building.
- 13. Made Ready For Occupancy** – There is an additional cost for more thorough cleaning where customer requests the facility be made ready for occupancy (cleaning such as striping/waxing floors, cleaning windows, beyond the standard construction site clean-up).
